The unwarrantable attack of some editor upon the good name of a medicine which has been recommended by mothers and women in all stations of life, claiming that it contains 17% alcohol and other injurious ingredients, will be answered, for Dr. R. V. Pierce, the widely-known physician and founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., has brought suit against the publication of this unfounded attack, claiming \$300,000 damages. The sworn complaint shows that the statements concerning our remedy made by this publication are wholly and absolutely false in every particular, and that the medicine contains no deleterious ingredients whatever, and none of the ingredients stated in the article so published.

If you question the purity of Dr. Pierce's Favorite Prescription, send a bottle to the health department of your city for analysis. Dr. R. V. Pierce is a specialist in the diseases of women, and employed this Prescription in a large practice, and finding that it cured the diseases and weaknesses of women in almost every case, he put it up in a form that could be easily procured at any drug store. It has enjoyed the confidence of the public for the past thirty-eight years, and during that time has had a larger sale than any other woman's tonic, for almost every woman who has tried it recommends it to her friends. Dr. R. V. Pierce is willing to offer \$1,000 reward to any one proving that Dr. Pierce's Favorite Prescription does or ever did contain any alcohol or harmful drugs. This Prescription is nature's cure, because it is a pure compound of medicinal plants and roots, scientifically extracted and combined, intended for the one single purpose of curing female weakness and the pains and drains incident to that distressing complaint. One of the largest wholesale drug houses in this country, writing from Philadelphia, stated, after a careful examination was called to the article in the publication mentioned, they asked the most prominent chemist in Philadelphia, Dr. Leffmann, to procure a bottle of Dr. Pierce's Favorite Prescription and report concerning the analysis. They say: "We received the following report:

"In response to a request from you we have tested a sample of the article sold as Dr. Pierce's Favorite Prescription, and have not been able to find either alcohol or opium in the same."

(Signed) HENRY LEFFMANN,
CHARLES H. LAWALL.

Dr. Pierce's Favorite Prescription is so well and favorably known and has such a wide sale that its makers could not afford to allow such a charge to pass unanswered, consequently they have brought suit against the publication.

Many women testify to the value of "Favorite Prescription," as well as some physicians:

DR. R. V. PIERCE, Buffalo, N. Y.:
"Sir—I am not giving to writing very much, but after using your medicine for some time, I think it is a good one, and I will write a few lines regarding same."

After finishing my education at the old Missouri Medical College (the oldest college of any kind west of Mississippi River), in 1883, I commenced practicing medicine in this country. For a number of years I was very reluctant about using anything not strictly ethical, but for several years I have been using Dr. Pierce's Favorite Prescription with much success in treatment of the various female complaints. For young girls just changing to womanhood it is an excellent medicine to tide them through that change, and for all irregularities of the monthly period I find it the remedy. For pregnant women I use it to tone up and strengthen the delicate organs of generation. For ladies suffering about the change of life it is also a splendid remedy. I know there exists a prejudice with some doctors regarding the use of proprietary remedies, but after twenty years' experience, I have learned to use any remedy that will benefit my patients, which I consider the logical view a doctor should take on the subject.
